Gen 560 9/12-48

Mr. Chandy has proposed the appointment of an Assistant Commissioner for each District temporarily for one month to collect information regarding the stock of food-grains available in the State, and the approximate quantity exported by road every week. I do not see how the appointment of an Assistant Commissioner would serve the required purpose. It is evidently impossible for one officer to go round all the villages in each District and collect information about the stock of foodstuffs remaining in each village, in the short space of one month. Any officer deputed for the purpose must necessarily obtain the information through the agency of the village and Taluk Officers; and if he is to do so, I do not see any need for the appointment of such an officer at all for each District.

8 I would suggest that the necessary information be obtained through the Village Officers in respect of rural tracts and the Municipal Staff in the Municipal Towns and Cities. Each Patel and Shanbhogue may be directed to submit to the Taluk Office through the Hobli Shekdar ~~three~~ two copies (in printed forms to be supplied to them) of a statement showing the stock of foodstuffs of the required kind, and exceeding a prescribed minimum quantity remaining with every person in his village. These statements may be consolidated and a Hobliwar return prepared in the Taluk Office for the whole Taluk. A copy of the consolidated return may be sent to the Deputy Commissioner for information and another to the Director of Civil Supplies who may have a consolidated return for the whole State prepared thereon in his office.

9 For the purpose of the compilation of the village returns in the Taluk Office, a temporary hand on Rs25/- or Rs30/- may be sanctioned for each Taluk for about a month.

10 As regards the collection of information about the weekly export by road, the only way in which this can be effectively done will be by the Establishment of temporary outposts or ookkads on all important frontier roads over which there is appreciable cart traffic in foodstuffs. We may require about a dozen such ookkads with an Establishment on Rs40/- for each ookkad.

Initials for
Revenue Commissioner. 19/7/18

2 The Chief Secretary to Govt.

11 The Director C.S may be asked to furnish the Note referred to in the last portion of his letter. We may then see which of the methods suggested will be suitable.

To

The Chief Secretary to the Government of

His Highness the Maharaja of Mysore.

Dated Bangalore, 27th June 28th *1918.*

SIR,

I am directed to forward for information a copy of letter No. 17-F.S., dated the 15th June 1918, from the Central Transport & Foodstuffs Board, with the request that, if there be no objection, the information required in paras 4 & 5 thereof, may kindly be supplied direct to the Central Transport & Foodstuffs Board.

I have the honour to be,

Sir,

Your most obedient servant,

Arthur Richards
P.A. to F.A.

~~For~~ First Assistant Resident.

No. 4543.

A copy of the foregoing letter, with enclosure, is forwarded to the Collector, Civil & Military Station of Bangalore, for information.

Sd/ Arthur Richards Captain
P.A.
~~For~~ First Assistant Resident.

Letter from Lt. Col. C.T.Waddington, I.A., M.C., Deputy Chairman and Secretary, Central Transport and Foodstuffs Board, to the Chief Commissioner of Coorg, No. 17-T.C., dated Simla, the 15th June 1918.

I am directed to address you on the subject of the scope and functions of the Central Transport and Foodstuffs Board - which was formed as a result of the Delhi Conference with the object of co-ordinating information and suggesting measures relative to the more efficient exploitation of India's resources in the matter of animal and mechanical transport and to collate information and advise Government as to measures calculated to develop the production of foodstuffs, to encourage local consumption of local products and generally to inculcate economy of resources in allied directions.

2. In regard to the movement of foodstuffs from one area to another, it has been decided in consultation with the Communications Board, which has been created with the object of controlling traffic on Railways to the best advantage, that the Communications Board will make arrangements in respect of transportation to give effect to the policy approved by Government on the advice of the Transport and Foodstuffs Board. It is suggested that in the Provinces the Directors of Civil Supplies - should take similar action by the issue of priority certificates on the advice of the Local Transport and Foodstuffs Board or corresponding agencies which may be established.

3. Instances have lately occurred which show the need of co-ordinating more closely than hitherto all the advisory boards and other agencies which have been created by Local Governments and of formulating a clear policy to attain the objects indicated in paragraph 1. As a matter of general policy, the Government of India have always been opposed to restrictions on exports of food grains not only from British India but from one part of India to another. On the other hand, it is now recognised that the contraction of railway traffic, due to the shortage of

...lling-stock, has introduced a new factor in the situation and one of the main functions of the Directors of Civil Supplies appointed by Local Governments is to determine what areas need to import grain and what areas have a surplus and accordingly to control the traffic from one area to another by means of priority certificates. It has lately been brought to the notice of this Board that, owing to prevailing high prices and in order to avoid depletion of existing stocks, a Local Government and certain Native States have resorted to the expedient of prohibiting the export of food grains from their territories, which has resulted in causing considerable distress and hardship in adjoining tracts, which look for their food supply upon external sources. It will be realised that such action may lead to retaliatory measures on the part of neighbouring provinces and Durbars which should react adversely upon the Local Governments and Durbars which originated the restrictive measures. It must be borne in mind, moreover, that the question of imposing restrictions does not depend upon the conditions obtaining in specified political areas, such as the provinces of India or the Native States, but on conditions obtaining in areas which may, and, in fact, often do, overlap the political boundary. These considerations seem to render it undesirable that it should be left to the discretion of Local Governments to restrict exports from their respective provinces without considering the needs of neighbouring tracts.

4. The matter has now been very carefully considered by my Board with a view to considering what measures should be concerted in order that the food resources of India may be utilised to the best advantage and I am to say that in their opinion the first step essential to the equitable distribution of food stocks is the acquisitionof information at the earliest possible date regarding the distribution, existing stocks and needs of the different areas in India. The collection of this information and its co-ordination is necessary if this Board is effectively to assist the Government of India and the different Provinces and [illegible]

difficulties occasioned by the shortage of rolling stock on the railways and the consequent difficulty of transport. I am accordingly to request that, arrangements may be made under which this Board will be furnished with a weekly report showing the movements of food grains in each province, the stocks available in each area, and the prospects of future scarcity or surplus in each tract. When this information is available for the whole of India, the Board will be in a position to impart it with their advice to the Communications Board and the locally constituted Provincial Transport and Foodstuffs Boards, and thus to place the latter in a position to advise the Provincial Directors of Civil Supplies.

3. It is suggested that the weekly report asked for may be submitted in the form attached, but the Board will welcome any suggestion which you may have to make regarding the form proposed and the information which will be furnished in it.

Report for the week ending ~~[illegible]~~

in the province of _____

City District or tract	Kind of grain	Amount	To District or tract.	Estimated stocks available	Prospects of scarcity or surplus.

---

x This may be either the district, division (where such exist) or any geographical area in which conditions are homogeneous. A separate return for some of the larger cities may also be desirable.

Office of the Director of Civil Supplies and Controller of Prices in Mysore.

Bangalore, 10th July *1918.*

D 818 Gen 54

From

K. CHANDY, Esq., B. A.,
Director of Civil Supplies and Controller of Prices.

To

C. S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

Sir,

With reference to your letter No.G.11/G.M.560-17-20 -- dated 2nd July 1918, I have the honour to state that the information necessary to fill up the form forwarded with your letter in respect of the Mysore State is an estimate of the stocks of the various food grains now in the country and a return of the-- weekly exports by road and rail.

In regard to the exports by rail the Madras and Southern Maharatta Railway have been for the past few weeks courteously-- sending me copies of their weekly traffic in commodities giving detailed particulars about food grains. These statements do not correctly show the quantity of food grains that have left the - State, as they do not differentiate between imports into stations within the State and those without the State although within the M. S. Railway. These statements are furnished free of cost, and it is probable that if a fee is paid for the necessary establishment the railway will be able to separate the figures so as to obtain accurate figures of the weekly return of exports of food grains. I have this day addressed the Railway on the subject- and shall submit their reply to Government.

The appointment of a temporary agency would seem to be - required to ascertain the existing stocks of food grains in the country and also to prepare an estimate of the average quantity of food grains exported outside the State every week by way of road. The inquiry in regard to existing stocks should have to be conducted by a very responsible officer in complete co-operation with the leading merchants and ryots of a district if such inquiry should not create a scare. The information will not be obtained by calling for a return of stocks under the Defence of India Rules, and it is probable that such returns sent wholesale from District head quarters will lead to large dispersion and - secret hoarding of stocks and may cause panic among our ignorant ryot population. I submit that an experienced Revenue Assistant Commissioner may be put on special duty for a period of -- one month in order to ascertain the probable quantity of the -- food grains in stock in the different parts of each district and also to prepare an estimate of the quantity crossing the frontiers of the State in that district, if any. A longer period than one month does not appear to be necessary, as the information can never be more than a very rough approximation to the truth, and it is impossible to obtain accurate figures by lengthening the duration of the inquiry. In case Government are --- agreeable to the idea of placing an Assistant Commissioner on Special duty in each of the districts I shall submit for his - guidance a note on the lines on which the inquiry may be conducted and the points on which information should be obtained.

I have the honour to be,

S i r ,

Your most obedient servant,

K. Chandy

Director of Civil Supplies.

DIARY NO. 2396

FROM

MAJOR E. H. S. JAMES,
FIRST ASSISTANT TO THE RESIDENT IN MYSORE.

To

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore.

Dated Bangalore, 5th August *1918.*

SIR,

In continuation of my letter No. 4542, dated the 28th June 1918, regarding certain information required by the Central Transport and Foodstuffs Board, I am directed to forward, for information a copy of a letter No. 98, dated the 12th July 1918 from the Board and to request that the Hon'ble the Resident may kindly be informed of the action taken by the Durbar on my letter cited above.

I have the honour to be,
Sir,
Your most obedient servant,

First Assistant Resident.

B.J.

Letter No. 98, dated the 12th July 1918, from the Deputy Chairman and Secretary, Central Transport and Foodstuffs Board, Simla, to the Hon'ble the Resident in Mysore.

---:0:---

I am directed to refer to correspondence ending with the letter from the Government of India in the Department of Revenue and Agriculture No. 431, dated the 24th May 1918 on the subject of the scope and functions of the Central Transport and Foodstuffs Board in paragraph 2 of which the Government of India emphasized the importance of the Mysore Durbar doing every thing practicable to relieve the existing congestion of Indian Railways by rendering the State independent as far as possible of outside sources of supply. I am now to forward for your information a copy of my letter No.17-F.S., dated the 15th June 1918 to the address of Local Governments and Administrations in which the Board expressed the opinion that the first step essential to the equitable distribution of India's stock of foodstuffs in future is the accumulation at the earliest possible moment of information regarding the distribution existing stocks and needs of the different areas in India.

In this connection I am to say that the Board do not desire to insist upon weekly returns or expect precise statistics, but they consider it essential to their purpose to obtain at regular and fairly frequent intervals reliable information of any large movements of foodstuffs from one state or British Province to another, together with an estimate of the prospective scarcity or abundance of foodgrains in different States.

I am accordingly to request you to be good enough to discuss the matter with the Director of Civil Supplies in Mysore with a view to co-operation on the lines indicated, and to inform me whether the Mysore State will be prepared to furnish this Board with periodical returns containing the information which is considered necessary for the equitable distribution of the foodstuffs of the Country.

Bangalore, 2nd August *191* 8.

Dear Sir,

I forward for your perusal a note indicating the general lines on which an inquiry as to the stocks of food-grains may be conducted by the officers recommended by Mr. Chandy to be appointed for the purpose. I have had the advantage of reading the remarks made by the Revenue Commissioner on Mr. Chandy's letter. It is of course true that accurate information regarding stocks can only be obtained by following the procedure recommended by the Revenue Commissioner. I am afraid that the inquiry is likely to take a considerable time and the results will not represent the actual facts, by the time they become available, as a considerable amount of sales are sure to have taken place in the intermediate period. I may mention as an instance, that some time ago returns were called for under the Defence of India Rules by the Deputy Commissioner, Mysore District, about stocks of food grains. I know as a matter of fact that the order caused considerable sensation among the mercantile community at Mysore, and lead to a number of private sales in order to avoid any commandeering by Government.

The inquiry proposed by Mr. Chandy will not give, it is true, accurate information, but will enable us to know what is the quantity of stocks which the persons intimately connected with the grain trade in the locality consider as available for export from the place. It is probable that a rough inquiry such as is proposed will at least have the advantage of restricting the area in which it may be necessary to conduct a detailed inquiry, for it will certainly lead to the identification of areas in which large stocks are held. If such aninquiry is approached through the traders and the chief

sellers, instead of through the Shanbogues and individual growers, it is probable that panic and dispersion of stocks may be prevented.

Yours sincerely,

C Rangamanna Rao
Sahib

Bangalore.

MA

N O T E.

In view of the rising prices of food-grains and the threatening seasonal conditions, ~~Government consider~~ it is desirable to have a definite idea of the actual stock of food-grains which is now available in the State. With a view to place a check on the excessive activity - - observed in the export of food-grains by rail and more recently by road, outside the State, Government have al--ready decided to bring such exports under control, and the inquiry as to stocks now contemplated, is proposed to be undertaken, in order to decide the measure of the - - restriction which should be exercised on exports, and also to determine if food-grains should be obtained from outside the State in case the stocks here prove to be inadequate.

The inquiry will be conducted on the following lines:-

The unit of inquiry should be a village, and the Patel and Shanbogue should prepare a statement in the accompanying form (Form A) with the assistance of such o: the important persons residing in the village whom they may wish to consult. The stocks of the four chief food grains, Ragi, Paddy, Rice and Jola (with each ryot who grows and stocks them in ~~the~~ village should be estimated along with an estimate side by side of his requirements of such grains for the next three months. After the stocks with each owner have been ascertained, an abstract for the village should be prepared as per form (B) show--ing the total amount of stock of each of the food-grains as well as the number of persons in the village who do not hold stock and have to purchase their requirements. The two statements should be forwarded to the Sheikdar the Hobli in which the village is situated. The Sheik

dar

this means a very elaborate & influential inquiry.

Sheikdar should scrutinize them and check Form B ~~with the assistance of a sub-committee for the Hobli on which the~~ in consultation with the leading ryots and merchants of the Hobli as far as possible. ~~should be re-presented.~~ He should then prepare a consolidated state-ment as per form (C) enclosed, and submit the same along with the forms received from the village to the Amildar.

The Amildar should check Forms (B) and (C) wit the assistance of a Taluk committee on which the chief ryots and grain merchants residing in the Taluk should be represented. A consolidated Hobliwar statement should then be prepared for the whole Taluk as per Form (D), and a copy of the same submitted to the Deputy Commissioner and the Director of Civil Supplies. The statements prepared by the village officers regarding the stocks with each owner (Form A) should be regarded as confidential, the scrutiny of the Hobli sub-committee and the Taluk committee being restricted to the information contained in the villagewar totals.

The Deputy Commissioner will cause the returns forwarded by the Amildar to be scrutinized by a District committee on which the chief merchants and other leading men of the District may be represented. Should the District committe require it, the villagewar totals pre-pared by the Sheikdar may be called for by them for scrutiny but not the return of stocks with each indivi-dual prepared by the village officers (i.e. Form A). A Talukwar statement for the whole District will be pre-pared by the Deputy Commissioner as per Form (E) and one copy of it should be sent to the Revenue Commissioner and another to the Director of Civil Supplies.

Stocks of food-grains in Municipal areas should be ascertained by the Vice-Presidents of Municipalities

with

with the assistance of committees nominated by them. Statements relating to stock with individual holders should be regarded as confidential and an abstract as per form (B) should be sent by the Vice-President of a Muni--cipality to the Deputy Commissioner for incorporation in the return for the District.

In view of the urgency of the matter the inform--tion should be collected with as little delay as prac-ticable. It is, therefore, directed that the village Officers should collect and submit the returns required of them within one week of their receipt of printed - - forms.

The Sheikdar will forward the returns received from the village officers after scrutiny, within 7 days, and the Amildar should submit them to the Deputy Commis--sioner within a similar period. The Deputy Commissioner will cause the Talukwar return to be prepared and compiled along with the returns from Municipalities referred to above, and forward the consolidated return to the Revenue Commissioner and the Director of Civil Supplies within one week of his receipt of the information from the Amil--dar and the Vice-Presidents of Municipalities.

In order that the work may be completed without delay, the Amildar or Deputy Amildar may be authorised to entertain such temporary establishment as may be necessary, and incur any expenditure not exceeding Rs 10/- for a Taluk or a Sub-Taluk. The money may be drawn from the - - Treasury on bills signed by the Amildar or Deputy Amildar. The expenditure for the establishment required in the - - Municipalities may be as follows:-

(1) Minor Municipalities... Rs ~~10~~ 5
(2) Major Municipalities... ~~25~~ 10
(3) City Municipalities ... 50

The

The Deputy Commissioner may be authorised to spend a sum of five rupees for preparing the return in each union. No remuneration need be paid to the village officers, but all the stationery required by them should be supplied.

As the objects of such an inquiry are likely to be misunderstood by our ~~ignorant~~ village population, it - - should be clearly explained to them that Government do not propose to commandeer stocks, nor have ~~they~~ any idea of restricting liberty of private action in the matter of sales so long as the stocks are not exported outside the State; and that all restrictions on exports will also be removed if the inquiry leads to the conclusion that sufficient stocks are available, and Government regula-tion of trade is unnecessary. On the other hand if the stocks are found to be inadequate and the seasonal conditions continue to be unfavourable, action will have to be taken to import food-grains so that serious distress may be avoided. In view of the present difficulties in railway transport it is necessary that - - Government should be informed of the actual condition of affairs early so that they may be enabled to take suitable action in time.

Revised draft

Govt Order No. FE 1117 8-27/8

Proceedings of the Government of H. H. the Maharaja of Mysore.

****

R e a d:--

Letter No. 624 dated the 7th August 1918 from the Director of Civil Supplies in Mysore submitting for the orders of Government a Note prepared by him in consultation with the Revenue Commissioner suggesting measures for ascertaining the stocks of the principal foodgrains in the State.

(Printed as an Annexure, as signed revised)

O r d e r No. G 3884-83 | G.P. 65-18-2.

Dated Bangalore, the 21st August 1918

In view of the present abnormal seasonal conditions, Government consider it very necessary to have an estimate of the existing stocks of the principal food grains in the State and are accordingly pleased to approve of the suggestions contained in the Note. The Revenue Commissioner is requested to issue at once suitable instructions for further action in the matter.

2. Sanction is accorded to the entertainment of temporary establishments required for the work, the cost in each case not exceeding the scale fixed in the - - margin. The total cost on this account ~~which~~ will amount to Rs. 1520 as detailed below ~~will be debited to the budget of the~~ & Separate orders will issue as to the head of budget to which the charge shall be debited ~~Land Revenue, Famine Department~~.

N O T E.

In view of the rising prices of food grains and the threatening seasonal conditions, it is desirable to have a definite idea of the actual stock of food-grains which is now available in the State. With a view to place a check on the excessive activity observed in the export of food grains by rail and more recently by road, outside the State, Government have already decided to bring such exports under control, and the inquiry as to stocks now contemplated, is proposed to be undertaken, in order to decide the measure of the restriction which should be exercised on exports, and also to determine if food-grains should be obtained from outside the State in case the stocks here prove to be inadequate.

The inquiry shall be conducted on the following lines :-

The unit of enquiry should be a village. An estimate of the stocks of the four chief food grains, ragi, paddy, rice and jola in each village should be made in consultation with the important persons residing in the village, by the Shanbhog and Patel who should embody the results of their enquiry in a statement as per Form 'A' and forward it to the Shekdar of the Hobli in which it is situated. The Shekdar should scrutinise the statement received from the village in consultation with the leading raiyats and merchants of the Hobli as far as possible. He should then prepare a consolidated statement as per Form 'B' appended and submit the same to the Amildar along with the Forms 'A' received from the villages.

The Amildar should check Forms 'A' & 'B' with the assistance of a Taluk Committee on which the Chief raiyats and grain merchants residing in the Taluk should be represented. A consolidated Hobliwise statement should then be prepared for the whole Taluk in Form 'B' a copy of the same submitted to the Deputy Commissioner and the Director of Civil Supplies.

The Deputy Commissioner will cause the returns forwarded by the Amildar to be scrutinised by a District Committee on which chief merchants and other leading men of the District may be represented. Should the District Committee require it, the Villagewar totals prepared by the Shekdar may be called for by them for scrutiny. A Talukwar statement for the whole district will be prepared by the Deputy Commissioner in Form B and one copy of it should be sent to the Revenue Commissioner and another to the Director of Civil Supplies.

Stocks of food grains in municipal areas should be ascertained by the Vice Presidents of Municipalities with the assistance of committees nominated by them and an abstract as per form B should be sent by the Vice President of the Municipality to the Deputy Commissioner for incorporation in the return for the District.

In view of the urgency of the matter the information should be collected with as little delay as practicable. It is, therefore directed that village officers should collect and submit the returns required of them within one week of their receipt of printed forms.

The Shekdar will forward the returns received from the village officers after scrutiny within 7 days and the Amildar should submit them to the Deputy Commissioner within a similar period. The Deputy Commissioner will cause the Talukwar returns to be prepared and compiled along with the returns from Municipalities referred to above and forward the consolidated return to the Revenue Commissioner and the Director of Civil Supplies within one week of the receipt of the information from the Amildar and the Vice Presidents of Municipalities.

In order that the work may be completed without delay, the Amildar or Deputy Amildar may be authorised to entertain such temporary establishment as may be necessary and incur any expenditure not exceeding Rs.10 for a Taluk or a Sub-Taluk. The money may be drawn from the Treasury on bills signed by the Amildar or Deputy Amildar. The expenditure for the establishment required in the

Municipalities may be as follows:-

1. Minor Municipalities	Rs. 5
2. Major Municipalities	Rs.10
3. City Municipalities	Rs.50

No remuneration need be paid to the village officers, but all the stationery required by them should be supplied.

As the ~~xxxxxx~~ objects of such an inquiry are likely to be misunderstood by our village population, ~~which~~ it should be clearly explained to them that Government do not propose to commandeer stocks nor that they have any idea of restricting the liberty of private action in the matter of sales so long as the stocks are not exported outside the State; and that all restrictions on exports will also be removed if the inquiry leads to the conclusion that sufficient stocks are available and Government regulation of trade is unnecessary. On the other hand if the stocks are ~~xxx~~ found to be inadequate and the seasonal conditions continue to be unfavourable, action will have to be taken to import food grains so that serious distress may be avoided. In view of the present difficulties in railway transport it is necessary that Government should be informed of the actual condition of affairs early so that they may be enabled to take suitable action in time.
